

5.5. Proposed recreation area. You received an e-mail a few days ago from Erica Douglas, forester, which read: "We are considering developing a campground or trail system on the Brown Tract. Are there any stands or groups of stands ≥ 150 years old and ≥ 60 acres in size?"

One group of stands.

Upon inspection, only one individual stand is greater than 60 acres (stand 42). It happens to be touching another stand with an age greater than 150 years (stand 34), thus the total area is about 77 acres.
